Community Colleges — State Funding

State funding is the second largest source of unrestricted revenue for Iowa's 15 community colleges, after tuition and fees. In FY 2017, the most recent data available, 35.4% of *unrestricted* general fund revenue came from State general aid, while 52.3% came from tuition and fees. The remainder came from local property taxes, federal funding, and other income. Historically, tuition and fees have grown as a percentage of revenue, as has other income. State general aid, local support, and federal funding have decreased over the long run. (See [Fiscal Topic: Community College Revenue by Source](#) for more detailed information on revenue since FY 1967.)

State Funding Beyond General Aid

As the largest portion of total State funding for the community colleges, annual general aid represented nearly two-thirds of the State dollars flowing to the colleges for FY 2008 through FY 2017. (See **Chart 1** below.)

Restricted State Funding by Category

The community colleges receive additional State dollars from a variety of funding streams. The colleges report this income as *restricted* revenue because the use of the funds is restricted to purposes specified in statute.

The categories of restricted State funding for the community colleges are:

- Workforce training appropriations from the Skilled Workforce and Job Creation Fund (SWJCF).
- Tax withholding diversions and credits related to job training programs under Iowa Code chapters [260E](#) and [260G](#).
- Receipt of funds from K-12 schools for jointly enrolled students. The K-12 schools receive additional State aid (weighting) for jointly enrolled students. The schools contract with the community colleges, and each contract sets the tuition rate the schools pay the colleges. Due to a lag in reporting, revenue for the current year and the year just ended must be estimated.
- Appropriations and transfers for the Corrections Education Program through the Department of Corrections.

Table 1 details all sources of State funding for the community colleges for FY 2017, FY 2018, and estimated FY 2019.
